

INSTRUCTIONS

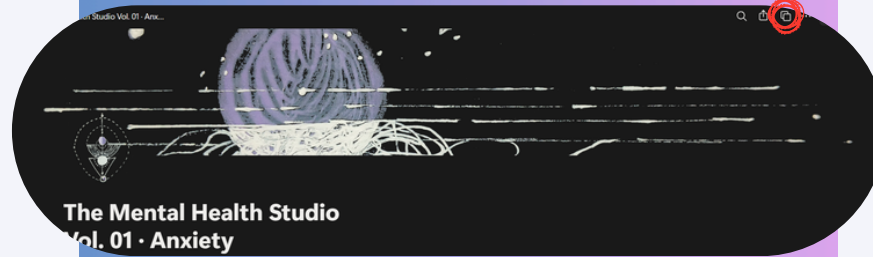

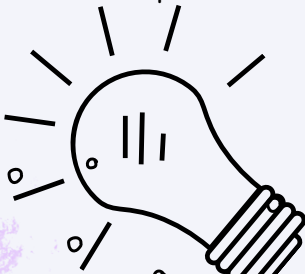

- 1 The Mental Health Studio was designed as a low-stimulation space.

The illustrations throughout the Studio are hand-painted specifically for the experience, with considered use of colour, contrast, space, and visual texture.

For this reason, the Studio is intended to be used in Dark Mode.

- 2 The music is curated specifically to work for anxiety. For this reason, ensure to make use of it during the exercises.

- 3 Make your own copy
Your check-ins and reflections should belong to you, so you'll duplicate the Studio into your own Notion workspace.
